Staff have received over 200 inquiries regarding the proposed land use designation changes. The Planning Department is continuing to return these calls and schedule site visits where appropriate.

Highlights of First Draft

For those in attendance – the first draft of the Official Plan can be accessed here: <http://www.acwtownship.ca/property-development/official-plan/>

Throughout the Plan

- Additional language to support mitigating climate change

Section 1: Plan and Its Purpose

- Addition of a land acknowledgement that the Township is the traditional territory of the Anishinaabe, Haudenosaunee and Neutrel peoples.

Highlights of First Draft

Section 3: Agriculture

- Permitting an additional residential unit accessory to a main dwelling on farms (i.e. a second permanent residence) within the main dwelling or in a separate building.
- Shifting from permitting home occupations to on-farm diversified uses.
- Clarifying renewable energy systems (i.e. wind, solar) as permitted uses within the Agriculture designation.

Highlights of First Draft

Section 4: Community Development (*previously Economic Development*)

- Proposing a shift from the economic development language in this section to community development: speaks more broadly to the Township's economic, social, and environmental resources as the basis for the local rural economy
- Identifying and protecting the Township's community heritage resources
- Introducing energy conservation and climate change action policies
- Implementing sourcewater protection policies.

Highlights of First Draft

Section 5: Extractive Resources

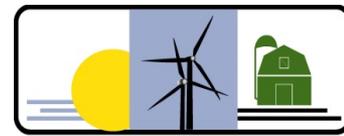

- Proposing that a Cumulative Impact Assessment be required for applications proposing new pits in close proximity to an existing, licensed pit.

Section 6: Natural Environment

- Proposing to implement the policies of the Huron County Natural Environment update, with consideration for the local context.

Section 8.4: Settlement Areas – Villages and Hamlets

- Proposing language to create opportunity for a special policy area in St. Helen's.

Highlights of First Draft

Section 8.7: Settlement Areas – Airport

- Proposing to allow for strategic placement of non-airport related uses on airport lands, provided they are demonstrated to be compatible with the airport.
- Clarifying how compatibility shall be demonstrated.

Section 9.6: Implementation – Site Plan Control

- Clarifying the considerations in evaluating site plans.

Highlights of First Draft

Section 9.14.2: Complete Application – Extractive Resources

- Proposing to potentially require the following with an application related to extractive resources:
 - The Cumulative Impact Assessment aforementioned.
 - A Heritage Impact Assessment for applications proximate to a cultural heritage resource.
 - An Agricultural Impact Assessment.

Section 9.14: Complete Application

- Clarifying the potential provincial studies that may be required with an application.

Next Steps

Council previously directed staff to compile reports on farm sizes and de-designation of smaller communities. These will be brought forward in the near future prior to the Public Meeting.

Staff will continue to respond to inquiries regarding the Official Plan and proposed land use designation changes.

Next Steps

If Council is generally satisfied with the direction of the Official Plan, it would be reasonable to consider scheduling a Public Meeting.

- Between now and then, staff would further revise the Official Plan as per comments received today and finalize recommendations on policies and mapping.
- At the Public Meeting, a further refined draft will be presented based on feedback gathered today, as well as proposed mapping (including correspondence received on the land use designation review and staff's comment).

Alternatively, if it is felt a substantial amount of revisions are needed, the Public Meeting may be scheduled at a later date.
